# SIGHTS + SCOPES

## STS-081 Mini Red Dot Sight

The MIL-GRADE Red Dot Sight is a versatile and lightweight sighting solution for handguns, rifles, and shotguns. A parallax free 1X red dot with 4 MOA reticle, coated glass lenses, and anodized aluminum nitrogen filled body construction ensures optimal performance in the most extreme conditions.

- 14-position rotary on/off switch (11 daylight/2 N.V. settings)
- Windage and elevation adjustments
- Anti-reflect and multi-layer band pass optical coating
- Removable honeycomb flash filter
- Nitrogen filled body
- M1913/Weaver rail mount
- (1) CR2032 lithium battery

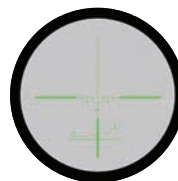

A removable honeycomb flash filter reduces glare and eliminates lens reflection.

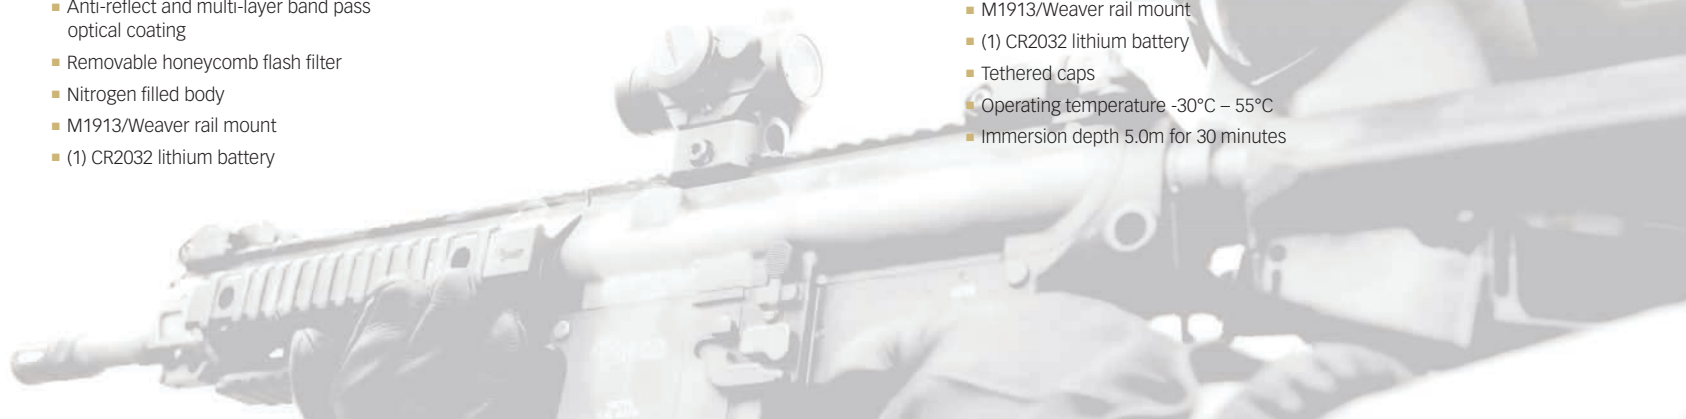

## CP4 Optical Sight

This rugged and reliable scope provides assured accuracy from a 4X fixed magnification reticle, graduated to 600 meters. It features three reticle modes – non-illuminated black, illuminated green and illuminated red, with each illuminated mode offering 5 brightness settings. Anodized aluminum construction with a nitrogen filled body ensures optimal performance in the most extreme conditions.

- 3 reticle modes – non-illuminated black, illuminated green and red
- 5 brightness settings for each illuminated mode (green and red)
- 4X fixed magnification duplex reticle
- Windage & elevation adjustments
- Anti-reflect & multi-layer band pass optical coating
- M1913/Weaver rail mount
- (1) CR2032 lithium battery
- Tethered caps
- Operating temperature -30°C – 55°C
- Immersion depth 5.0m for 30 minutes

The CP4 4X Optical Sight is equipped with MIL-GRADE range finding reticles for rapid range estimation.

## Mini Red Dot Sight Riser

The Mini Red Dot Sight Riser is available for those using the MIL-Grade SIGTac™ Mini Red Dot Sight on an AR style rifle platform with a flat top rail. The Mini Red Dot Sight Riser enables the user to bottom 1/3 co-witness with their A2 height fixed or folding iron sights. Clamp the riser to the accessory rail on your rifle using the supplied hardware and mount your sight to the riser.

## Bridge Mount

Heavy duty reinforced polymer bridge mount allows easy mounting of optics to your handgun without modifying the host firearm. The Bridge Mount attaches to the pistol's accessory rail. With M1913 rails at both 12 and 6 o'clock, the user does not forfeit the ability to attach lights or lasers.

- Reinforced polymer construction
- M1913 compatible rail at 12 and 6 o'clock
- Easy installation/removal
- Available for railed SIG SAUER® pistols or any pistol with M1913 accessory rail

6061 T6 hard coat anodized,  
M1913 compatible.

## Flip Sight Set

INCLUDES REAR PEEP & FRONT

Precision machined and hard coat anodized 6061 T6 aluminum sights with dual aperture windage adjustable rear and elevation adjustable front. Sights mount on any M1913 equipped platform and fold down compactly for use with optics.

- Hard-use 6061 T6 aluminum
- Standard A2 height
- Securely mounts to rail with slotted screw
- Positive detent, non-locking

# LIGHTS AND LASERS

The STL-300 STOPLITE features a luminous momentary mode light button and an independent laser on/off button.

## STL-300 STOPLITE® Tactical Light & Laser

The STL-300 STOPLITE is a versatile and powerful flashlight and strobe packing approximately 450 lumens\* of blinding light. Handheld or easily mounted to an accessory rail, the STOPLITE also features an adjustable laser aiming module and a remote momentary On/Off pressure switch. The grip provides extra stability when mounted on a rifle.

- 450 Lumen\* CREE LED
- 3 function modes – steady light, strobe light, laser (with light or independent)
- Steady On/Off and momentary On/Off operation
- Remote momentary On/Off pressure switch
- Quick release rail attachment
- Ergonomic rubber overmolded grip
- Uses (4) AA batteries (lithium compatible)

## STL-900 Tactical Light & Laser

The Tactical Light & Laser is a compact, lightweight solution for providing pistols and rifles with a high powered beam (steady or disorienting strobe light), incorporating a pinpoint red laser adjustable for windage and elevation. This tiny powerhouse packs a genuine 130 lumen\* CREE LED in a quick mount design.

- Momentary, constant on, and strobe (laser is independent)
- Convenient side access battery compartment
- Self-storing Allen key for windage & elevation adjustment
- Easy rail attachment
- (1) CR123 lithium battery

Ambidextrous toggle switches for momentary or constant on.

\*Approximate lumens

## STL-100WPN Mini Tactical Flashlight

Innovative tactical light with 2 bodies. Knurled 6061 T6 hard anodized tube with spring steel pocket clip, lanyard and rear push button activation. Comes with a low-profile M1913 compatible tube with remote pressure switch for long gun application. 110 lumen\* CREE LED is powered by (1) convenient AA battery.

- STL-100WPN comes with (1) CREE LED head and 2 bodies (pocket & weapon mount)
- Momentary and constant on
- Uses (1) AA battery (lithium compatible)

## CPL-RM Compact Pistol Laser

The CPL-RM Compact Pistol Laser is a lightweight, rail-mounted, red pointing laser used for aiming. The CPL-RM combines pinpoint accuracy and rapid target acquisition with intuitive operation in a form-fitting package weighing only 1.1 oz.

- 2 hours steady operation (approx.)
- Mounts to M1913 accessory rail
- Ambidextrous on/off switches
- Windage & elevation adjustments
- (1) 3V CR1/3N lithium battery
- High visibility (635m), Class IIIa, red laser

## X38-TGL Trigger Guard Laser

The X38-TGL Trigger Guard Laser for the P238® and P938™ Pistols is a compact, lightweight, red pointing laser used for aiming. The X38-TGL combines pinpoint accuracy and rapid target acquisition with intuitive operation, in a form fitting package weighing only 1.0 oz.

- Ambidextrous On/Off switches
- Compact form factor blends with the lines of the P238 and P938
- Convenient low profile mounting
- Windage & elevation adjustments

## P290®-LM

The P290-LM Laser Module is a compact, lightweight, frame-mounted, red pointing laser used for aiming. The P290-LM Laser Module combines pinpoint accuracy and rapid target acquisition with intuitive operation in a form-fitting package weighing only 1.1 oz.

- Ambidextrous On/Off switches
- Compact size conforms to the shape of the P290
- Windage & elevation adjustments

# RHS HOLSTER SYSTEM

Level 2 Holster

Level 3 Holster

Level 2 Holster  
with Light

## Rotating Retention Polymer Holsters

Made of durable, high-tech polymer, these right-handed holsters use a unique patented retention system with a zero time to disengage feature. Simply depressing the lever allows for instant removal of the firearm.

- Comfortable, contoured fit holster is positioned to where your trigger finger normally rests at "The Ready"
- Fully adjustable for cant
- Rotates 360 degrees for every application (small of back, cross draw, etc.)
- Adjusts with simple Allen key
- Right-handed models only

## Tactical DLP (Drop Leg Platform)

FOR ROTO HOLSTERS, MAG POUCHES, AND MORE

This fully adjustable, drop leg modular platform allows quick removal and installation of SIGTac™ polymer holsters, mag pouches, and other accessories. The polymer main panel offers a comfortable drop leg mounted platform for the end user. Fully adjustable straps fitted with ITW-Nexus side release buckles make the holster comfortable and fully adjustable to the operator.

- Multiple mounting locations
- 360 degree rotation for all applications
- Adjustable drop length

## MOLLE Adapter

This black polymer, one-piece design provides a dependable way to attach SIGTac paddle retention holsters or mag pouches directly to a MOLLE equipped piece of kit. Single injection molding features no rivets or weak points and quickly replaces the paddle portion of the holster or mag pouch.

- Rotates 360 degrees for every application
- Securely attaches to most MOLLE equipped platforms

## Adjustable Height Lowride Belt Slide

Works with all SIGTac holsters and mag pouches. With three position attachment points, this adjustable height belt slide allows the user to adjust where the holster rides at their side. This durable polymer belt slide features a paddle back to give you a comfortable, contoured fit.

- Fits SIGTac accessories with rotational attachment points
- Rotates 360 degrees for every application
- Adjusts with simple Allen key

## Belt Clip Adapter

Like our durable MOLLE Adapter and Belt Loop Adapter, this durable, black polymer belt clip easily replaces the paddles on our retention holsters and mag pouches. Fully adjustable for tension and cant, the clip fits most belts up to 2 1/2".

- Rotates 360 degrees for every application
- Adjusts with a simple Allen key

## Paddle

The Paddle, standard with all holsters, is a rugged single piece accommodating belts up to 2 1/4" wide. With innovative retention tabs, the paddle works well with or without a belt.

# HOLSTERS

## Level 2 Retention Holster with Light

This innovative Level 2 Retention Holster (hood) is compatible with SIG SAUER® SP2022®, P226R, MK25, P220R, P220R Carry and P229R pistols with any of the following light/lasers mounted to the accessory rail: SIGTac™ STL-900, Surefire® X300®, Streamlight® TLR-1® or Insight® M3®. Right-handed models for Glock® 17/19/22/23 coming soon.

## Level 3 Tactical DLP (Drop Leg Platform)

Available for SP2022 and GLOCK  
9mm/.357SIG/.40S&W

This fully adjustable, drop leg, modular system includes a Level 3 Retention Holster that can be quickly and easily removed for the installation of additional accessories. The polymer main panel offers a comfortable drop leg platform for the end user. Fully adjustable straps fitted with ITW-Nexus side release buckles make the holster comfortable and fully adjustable to the operator.

### Roto Retention Paddle Holsters

#### with Integrated Magazine Pouch

The only holster utilizing our quick release retention lever that also contains an integral magazine pouch, offering the ultimate in performance and convenience.

- Comfortable, contoured fit holster that is positioned to where your trigger finger normally rests at "The Ready"
- Fully adjustable for cant
- Rotates 360 degrees for every application (small of back, cross draw, etc.)
- Adjusts with simple Allen key
- Single magazine pouch
- Right-handed models only

### Standard Paddle Holsters

Single injection molding creates a one-piece holster that is closer to the body, more durable, and lighter weight than other tactical holsters.

- High-tech, black polymer, one-piece design features no rivets or weak points
- 15 degree forward cant (FBI style)
- Right-handed models only

### Belt Clip Holster

### P238® Pocket Holster

Supports SIG SAUER® P238  
with or without mounted laser

For those desiring a specialized concealable holster crafted in full grain cowhide, these holsters are built to last.

# MAG POUCHES + RIFLE ACCESSORIES

Manufactured using the same durable, reinforced polymer as our holsters, these Single and Double Magazine Pouches were specifically designed to be easily and quickly mounted on all connector components of the RHS Holster System. The Double Magazine Pouch comes mounted on a paddle back and provides a comfortable, contoured fit.

- Rotates 360 degrees for every application (small of back, cross draw, etc.)
- Fully adjustable for magazine tension and cant
- Adjusts with simple Allen key

**Single Magazine Pouches**

Paddle Optional

**Double Magazine Pouches**

**Single AR Mag Carrier**

Friction fit for standard GI 20 and 30rd magazines, the paddle configuration is ideal for range use, training, or concealed carry.

- Rotates 360 degrees for every application (small of back, cross draw, etc.)
- Fully adjustable for magazine tension and cant using simple Allen key

### Segmented Vertical Forend Grip

Made of durable polymer, this three-piece design is easily configurable from a full length to a "stubby" grip and features a water tight storage compartment in the grip. It easily mounts to any M1913 tactical accessory rail.

- Adjustable in length
- Internal storage
- Easily mounts to M1913 accessory rail with a standard screwdriver

### Nylon Tactical Sling

For M16/AR/SIG556®/SIG522™

This black nylon, 2-point tactical sling is fully adjustable and allows for hands-free carry and fast response. Attaches to rifle with black, powder-coated, metal snap clips.

- Easy adjustment
- Quick release clips

### Single Point Bungee Sling

High strength 500 Denier single point QD sling with bungee section for maximum flexibility. Available in black or tan.

### Standard Rifle Bag

This rugged all-purpose bag, available in black or tan, features high-quality 500 Denier Nylon construction, MOLLE panel on front and back, and 3 covered double mag pouches. The bag also has added backpack straps for hands-free transport.

### Tactical Shoulder Bag

Available in black or tan, this all-purpose bag, features an ambidextrous strap for wearing on either shoulder, and a large, padded main compartment for transporting sensitive equipment. The bag is cushioned for comfort during extended use and contains compartments for organizing magazines, tools, and other items, as well as an adjustable water bottle holder.

### Car Rifle Go Bag

Available in black or tan, this bag easily and discreetly mounts to the back of your vehicle's front seats to hold a host of weapon platforms/systems from AR pistols and rifles to scoped hunting rifles and shotguns. Quick release tabs and buckles make for secure storage and ease and speed of use.

# ACP

## ADAPTIVE CARBINE PLATFORM

The Adaptive Carbine Platform is the industry's first universal, aircraft-grade aluminum pistol to carbine adapter, designed to quickly and easily transform virtually any full-size railed pistol into an M1913 accessory customizable carbine platform. Simply slide your pistol into the accessory rail clamp adapter and lock it into place.

THE ACP PROVIDES THE END USER WITH A SPECIFIC MISSION CONFIGURABLE CARBINE AND IS AVAILABLE IN THREE CONFIGURATIONS.

The ACP can be customized with any M1913 compatible accessories.

### ACP - Standard

Comes with the ACP universal pistol rail adapter fitted with a QD sling mount.

### ACP - Enhanced

Comes with the ACP universal pistol rail adapter, QD sling mount, Mini Red Dot Sight, and a single point bungee sling.

### ACP - LE

A tactical and law enforcement variant that comes with the ACP universal pistol rail adapter and a folding stock. All NFA rules apply.
